

# Fireblade

**ELITE** ISO

**TOUR** ISO

**S-LITE** ISO

**Fireblade Iso Elite** - Combining IsoFrame™ head geometry, head heavy balance and aerodynamic frame profile results in a frame that unleashes ultimate power. With the addition of the Carlton Flex System™, optimised by Nanopulse™ reactive energy, this frame redefines the frontiers of power generation and is the number one choice of offensive players.

Construction - **Nanopulse™ Carbon**  
 Head-shape - **IsoFrame™**  
 Weight (un-strung) - **84G**  
 Balance - **Head Heavy**  
 Flex - **Extra Stiff**  
 Length - **670mm**

**Fireblade Iso Tour** - Unmatched reactive energy, generated through a combination of Nanopulse™ construction, aerodynamic IsoFrame™ geometry and Carlton Flex System™ to release lightning quick power, controlled by a stiff shaft and even balance. This delivers unrivalled playability to offensive players requiring a racket loaded with performance technologies.

Construction - **Nanopulse™ Carbon**  
 Head-shape - **IsoFrame™**  
 Weight (un-strung) - **86G**  
 Balance - **Even**  
 Flex - **Stiff**  
 Length - **665mm**

**Fireblade Iso S-Lite** - IsoFrame™ geometry combined with the Carlton Flex System™ and Nanopulse™ construction results in a frame that delivers unrivalled power at this super light weight, aerodynamic specification. With an extra head light balance this racket also delivers optimal manoeuvrability for players looking for greater power in a defensive racket.

Construction - **Nanopulse™ Carbon**  
 Head-shape - **IsoFrame™**  
 Weight (un-strung) - **84G**  
 Balance - **Extra Head Light**  
 Flex - **Medium**  
 Length - **670mm**
